

NGEx Files Technical Report on Maiden Resource Estimate for Filo del Sol Project

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Dec. 19, 2014) -NGEx Resources Inc. ("NGEx" or the "Company") (TSX:NGQ)(NASDAQ OMX:NGQ) announces that a National Instrument 43-101 Technical Report (the "Technical Report") with an effective date of November 25, 2014 summarizing the initial Mineral Resource estimate for the Filo del Sol project has been completed and filed on SEDAR.

The initial Mineral Resource estimate for Filo del Sol was announced in a news release dated December 2, 2014. The Technical Report titled "Initial Mineral Resource Estimate for the Filo del Sol Property, Region III of Atacama, Chile and San Juan Province, Argentina" was prepared by D. Charchaflié, P.Geo. of LPF Consulting SRL, and James N. Gray, P.Geo. of Advantage Geoservices Ltd, both of whom are Qualified Persons as defined by NI 43-101 and are independent of the Company. The Technical Report is available for review under the Company's profile on SEDAR (www.sedar.com) and on the Company's website (www.ngexresources.com).

About NGEX

NGEx is a Canadian mineral exploration company with exploration projects in Chile, Argentina, and Canada. The Company's shares are listed on the Toronto Stock Exchange and NASDAQ OMX under the symbol "NGQ". The Company's focus is on advancing its South American projects which include several large copper-gold systems including the Josemaria, Los Helados, and Filo del Sol projects, located on a land package that the Company holds in Chile's Region III and adjacent San Juan Province, Argentina. Los Helados is part of a joint venture in which the Company holds 60% and Pan Pacific Copper Co., Ltd. holds 40%. Josemaria is part of a joint venture in which the Company holds 60% and Japan Oil, Gas, and Metals National Corporation (JOGMEC) owns 40%. In addition, NGEx holds a 100% interest in Filo del Sol and an extensive portfolio of other 100% owned early stage exploration projects located in Chile and Argentina. It also owns a 100% interest in the GJ copper and gold project located in British Columbia, Canada. The GJ project is optioned to Teck Resources who are earning up to a 75% interest.

On behalf of the board

Cautionary Note Regarding Forward-Looking Statements and Information

All statements in this news release other than statements of historical facts are "forward looking information". Forward-looking information includes, but is not limited to, statements with respect to the resource potential, quantity and/or grade of minerals, potential size of a mineralized zone, potential expansion of mineralization, timing of and results of future exploration and/ or mineral resource estimates, success of future exploration or development plans. Generally, this forward-looking information can be identified by the use of forward-looking terminology such as "is optimistic that", "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved" or the negative connotations thereof. All such forward-looking information is based on the opinions and estimates of the relevant management as of the date such statements are made and are subject to important risk factors and uncertainties, many of which are beyond the Company's ability to control or predict.

Forward-looking information is necessarily based on estimates and assumptions that are inherently subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking information, including but not limited to: risks and uncertainties relating to, among other things, changes in commodity prices, currency fluctuation, financing, unanticipated resource grades, infrastructure, results of exploration activities, cost overruns, availability of materials and equipment, timeliness of government approvals, taxation, political risk and related economic risk and unanticipated environmental impact on operations as well as other risks and uncertainties described under "Risks Factors" in the Company's Annual Information Form available under the Company's profile at www.sedar.com and the Company's website.

Although the Company has attempted to identify important factors that would cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated, or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. All of the forward-looking information contained in this document is qualified by these cautionary statements. Readers should not place undue reliance on forward-looking information.

Forward-looking information is provided for the purpose of providing information about management's current expectations and plans and allowing investors and other to get a better understanding of the Company's operating environment. These factors are not, and should not be construed as being, exhaustive. Statements relating to "mineral resources" are deemed to be forward-looking information, as they involve the implied assessment, based on certain estimates and assumptions that the mineral resources described can be profitably produced in the future. The forward-looking information contained in this press release is expressly qualified by this cautionary statement. The Company expressly disclaims any intention or obligation to update or revise any forward-looking information whether as a result of new information, events or otherwise, except in accordance with applicable securities laws.
